Carissimi Soci e Amici della SDO,

è con grande entusiasmo che vi do il benvenuto al **56° Congresso Internazionale SDO**, nella prestigiosa cornice della **Fortezza da Basso di Firenze**, dal **20 al 22 novembre 2025**.

Il tema del Congresso è di grande attualità e di rilevante impatto clinico: **"Ortodonzia personalizzata e centrata sul paziente per un trattamento efficace, efficiente e sicuro."**

Giovedì 20 novembre sarà dedicato ai tradizionali **corsi pre-congressuali**, che comprenderanno due corsi di un'intera giornata:

uno tenuto da **Luis Carrière e Ana Maria Cantor**, e l'altro da **Benedict Wilmes**. Saranno inoltre proposti due **corsi pratici hands-on**, pensati in particolare per i colleghi più giovani: uno, in collaborazione con la **SIBOS**, dedicato all'**uprighting in ortodonzia**, e l'altro focalizzato sugli **allineatori in-house** per il trattamento dell'affollamento degli incisivi inferiori. La giornata si concluderà con la **Cerimonia inaugurale**, seguita da una **Lectio Magistralis** del **Dr. Nikolaos Pandis**, Editor-in-Chief di Progress in Orthodontics, e da un **Aperitivo di benvenuto nella Mostra Merceologica**.

Il **programma scientifico**, previsto per **venerdì 21 e sabato 22 novembre**, si svilupperà in **due sale principali**:

- **Ortodonzia personalizzata e centrata sul paziente** (venerdì 21 e sabato 22 novembre – Sala Cavaniglia), con un focus sul ruolo delle caratteristiche individuali — come il timing di trattamento e la risposta individuale del paziente — e sulla partecipazione attiva del paziente nella scelta della terapia più appropriata. L'obiettivo è raggiungere un equilibrio ottimale tra costi e benefici, una biomeccanica e una progettazione delle apparecchiature il più possibile efficienti, una piena soddisfazione estetica e funzionale e un impatto positivo sulla qualità di vita complessiva.
- **Trattamento con allineatori: cosa possiamo davvero aspettarci?** (venerdì 21 novembre – Sala Nazioni), con un confronto clinico-scientifico basato sui risultati di uno Studio Delphi Internazionale (Consensus Conference), secondo il format già apprezzato durante lo Spring Meeting. Anche in questa occasione, lo Studio Delphi offrirà una guida autorevole per i Soci, un riferimento per i relatori e un prezioso spunto per la discussione in sala.

Sabato mattina si terrà inoltre un **Corso Multidisciplinare SDO-SIdP sul trattamento del sorriso gengivale**, dove si confronteranno approcci ortodontici, parodontali, restaurativi e chirurgici maxillo-facciali. Durante tutte le sessioni scientifiche, i partecipanti saranno incoraggiati a interagire direttamente con i relatori attraverso la **App SDO Eventi**, inviando domande e contribuendo attivamente alla discussione guidata dai Moderatori.

Un'attenzione speciale sarà riservata ai nostri **giovani Soci**, con iniziative sviluppate dalla **Commissione SDO Young** per valorizzare il loro entusiasmo e favorire il loro percorso professionale. E naturalmente... non mancheranno **i momenti convivialità!** La **President's Reception** e il **SDO Party** si svolgeranno nella suggestiva cornice della **Stazione Leopolda**, per festeggiare insieme in un'atmosfera elegante e di grande fascino.

Vi auguro di vivere un Congresso memorabile, ricco di contenuti, confronto e ispirazione. Sarà una preziosa occasione per condividere esperienze, crescere professionalmente e rafforzare il nostro senso di comunità.

Lorenzo Franchi
Presidente SDO 2025

Dear Members and Friends of SDO,

it is with great enthusiasm that I welcome you to the **56th SDO International Congress**, in the prestigious setting of the **Fortezza da Basso in Florence**, from **November 20 to 22, 2025**. The theme of the Congress is highly relevant and carries significant clinical implications: **Personalized and Patient-Centered Orthodontics for Effective, Efficient, and Safe Patient Care**.

Thursday, November 20, will be devoted to the traditional **pre-congress courses**, featuring two full-day courses: one led by **Luis Carrière and Ana Maria Cantor**, and the other by

Benedict Wilmes. In addition, **two hands-on practical courses** specifically designed for younger colleagues will be offered: one organized in collaboration with the Italian Society of Biomechanics and Segmented Orthodontics (SIBOS) on **uprighting in orthodontics**, and the other dedicated to **in-house aligners** for the treatment of lower incisor crowding. The day will conclude with the **Opening Ceremony**, followed by a **Lectio Magistralis** by **Dr. Nikolaos Pandis**, Editor-in-Chief of Progress in Orthodontics, and a **Welcome Reception** in the **Trade Exhibition**.

The **scientific program**, on **Friday, November 21**, and **Saturday, November 22**, will unfold across **two main lecture halls**:

- **Personalized and Patient-Centered Orthodontics** (Friday, November 21, and Saturday, November 22 – Cavaniglia Hall), focusing on the role of individual characteristics — such as treatment timing and patient-specific response — and on the active involvement of the patient in selecting the most appropriate therapy. The aim is to achieve the most efficient biomechanics and appliance design, an optimal cost-benefit balance, full esthetic and functional satisfaction, and a positive impact on the overall quality of life.
- **Treatment with Aligners: What Can We Really Expect?** (Friday, November 21 – Nazioni Hall), a clinical-scientific discussion based on the findings of an International Delphi Study (Consensus Conference), following the successful format introduced at the Spring Meeting. Once again, the Delphi Study will provide authoritative guidance for our members, a solid reference for speakers, and a valuable foundation for in-depth discussion.

On **Saturday morning**, a **Multidisciplinary SDO-SIdP Course** on the **Treatment of the Gummy Smile** will bring together and compare orthodontic, periodontal, restorative, and maxillofacial surgical approaches. Throughout all sessions, participants will be encouraged to interact directly with the speakers through the **App SDO Eventi**, submitting questions and actively contributing to the discussion facilitated by Moderators.

Special attention will be dedicated to **young professionals**, with initiatives developed by the **SDO Young Committee** to foster their enthusiasm and support their professional growth. And of course... there will be no shortage of **social events!** The **President's Reception** and the **SDO Party** will be held in the evocative setting of **Stazione Leopolda**, offering a vibrant and elegant atmosphere to celebrate together.

I wish you all to live a memorable Congress rich in content, exchange, and inspiration. It will be a valuable opportunity to share experiences, grow professionally, and strengthen our sense of community.

Lorenzo Franchi
2025 SDO President

ONE-DAY COURSE

LUIS CARRIÈRE, ANA MARIA CANTOR CLINICAL STEPS, STRATEGIES, AND TREATMENT PROTOCOLS FOR THE SUCCESSFUL SEQUENTIAL MANAGEMENT OF CLASS II AND CLASS III MALOCCLUSIONS: BUILDING LONG-TERM STABILITY

Moderator: Veronica Giuntini

10:30 - 12:00 Luis Carrière

*Biomechanics of the Class II Motion Appliance;
Keys to Building Long-Term Stability in Orthodontic
Cases; Clinical Management of Class II Division 1 and
Division 2 Malocclusions; Strategies from Diagnosis
to Finalization*

12:00 - 13:00 Ana Maria Cantor

*Indications for Regular vs. Shorty Carriere Motion;
Appliance in Class II Cases; Elastic Protocols Tailored
to Each Approach; Case-Based Discussion of Various
Class II Malocclusions from Start to Finish*

13:00 - 14:15 LUNCH

14:15 - 15:45 Ana Maria Cantor, Luis Carrière

*Class II and Class III Treatment in Mixed Dentition
and Adult Patients; Clinical Protocols and
Decision-Making to Achieve Successful Outcomes*

15:45 - 16:15 COFFEE BREAK

16:15 - 17:30 Luis Carrière, Ana Maria Cantor

*Sagittal First as an Efficient Alternative to Surgery in
Severe Class III Malocclusions; Innovative Approaches
and a Forward-Looking Perspective on Non-Surgical
Treatment Options*

17:30 - 18:15 OPENING CEREMONY

18:15 - 19:00 LECTIO MAGISTRALIS

Nikolaos Pandis
Orthodontist or Salesman?

NAZIONI HALL

ONE-DAY COURSE

BENEDICT WILMES

SLIDERS & EXPANDERS TO OVERCOME ALIGNER PROBLEMS AND LIMITS

Moderator: Domenico Ciavarella

10:30 - 13:00 *Conventional Versus CAD/CAM Digital Techniques
for TADs; Optimal Aligner & TAD Slider Combinations
and Staging; Upper Molar Distalization;
Upper Molar Mesialization*

13:00 - 14:15 LUNCH

14:15 - 15:45 *MARPE and Early Class III Treatment;
Lower Molar Mesialization*

15:45 - 16:15 COFFEE BREAK

16:15 - 17:30 *Molar Uprighting and Intrusion; Alignment
of Impacted Teeth*

20/11 THURSDAY

VOLTA HALL

TEATRINO LORENESE

HANDS-ON COURSE BERNARDO SOUKI, CARLO BOSONI IN-HOUSE ALIGNERS: PRACTICAL SOLUTIONS FOR LOWER INCISORS CROWDING TREATMENT

10:30 - 13:00

Theoretical Foundations

Foundations of In-House Aligner Therapy: Clinical rationale and benefits of in-house aligners. Digital workflow and treatment planning for lower incisor crowding, including predictable and challenging movements with clear aligners, anchorage strategies, interproximal reduction (IPR), and the design and role of attachments and auxiliaries.

Clinical Planning and Lab Integration

Criteria for case selection; Digital planning and treatment progress monitoring; Workflow for refinements and corrections; Basic lab setup with equipment, materials, and time management; Case examples covering successes, complications, troubleshooting, and legal implications; Interactive Q&A and participant discussion (last 10 minutes).

13:00 - 14:15 LUNCH

14:45 - 15:45

Software and Laboratory Practice

ArchForm Software Workflow Demonstration: Patient Import, Segmentation, Movement Staging, Attachment Design, STL Export, Printing Software Integration, and Workflow Optimization Tips and Pitfalls

15:45 - 16:15 COFFEE BREAK

16:15 - 17:30 *Hands-On Session: From Print to Aligner; 3D Printing, Thermoforming, and Trimming and Finishing*

HANDS-ON COURSE ON TYPODONT PIETRO VECCHIONE, GERARDO FRANZESE UPRIGHTING IN ORTHODONTICS: FROM THEORY TO PRACTICE. IN COLLABORATION WITH SIBOS

10:30 - 13:00 *Analysis of Uprighting Movement and Comparison of Orthodontic Techniques*

13:00 - 14:15 LUNCH

14:15 - 15:45 *Use of Mini-Screws for Uprighting Movement and Hands-on Modeling on Typodont*

15:45 - 16:15 COFFEE BREAK

16:15 - 17:30 *Uprighting in Statically Determinate Systems and Hands-on Modeling on Typodont*

19:00 - 20:00 GET TOGETHER
in the Exhibit Hall

21/11 FRIDAY

CAVANIGLIA HALL

09:00 - 09:15 WELCOME

GENERAL INFORMATION

The Slide Center, Welcome Desk and SIDO Secretariat will be opened as follows:

Thursday	08:30 - 18:30
Friday	08:00 - 18:30
Saturday	08:15 - 15:00

Saturday	11:00 - 11:30	Coffee Break
	14:30 - 15:00	Lunch

WORKING LANGUAGES

The working languages of the congress are Italian and English. Simultaneous translation from English into Italian and vice versa is provided for the scientific sessions in Cavaniglia and Nazioni Hall.

SIDO GENERAL ASSEMBLY

CAVANIGLIA HALL
Saturday 15:00 - 16:00

COFFEE BREAK AND LUNCH

The following breaks are provided within the Exhibition Area:

Thursday	
13:00 - 14:15	Lunch
15:45 - 16:15	Coffee Break
Friday	
11:15 - 11:45	Coffee Break
13:00 - 14:15	Lunch
16:15 - 16:45	Coffee Break

CONGRESS PHOTOS

Please note that photographs will be taken during the Congress by the official photographers for dissemination via the web for promotional and communication purposes.

SOCIAL PROGRAM

Exhibit Hall / Thursday
Get Together 19:00 - 20:00

Stazione Leopolda / Friday

President's Reception 20:15 - 22:30
SIDO Party 22:30 - 01:00

For those who buy the ticket for the SIDO Party only, the entrance is allowed from 22:30 until 23:15.

Dress Code: Cocktail

Pick up your wristband at the Social Events Desk

How to get to Stazione Leopolda:

TRAMVIA

T1 line towards Villa Costanza from Fortezza da Basso or Santa Maria Novella Station (both sides)
stop: Porta al Prato - Leopolda

REGISTRATION

Registration fees are published on the congress website and include:

- entrance to Scientific Sessions
- congress kit bag
- entrance to the exhibition hall
- certificate of attendance
- coffee and lunch breaks as indicated in the Program

The badge must be worn at all times.

SUSTAINABILITY

All butterfly badges are produced in the Netherlands (EU) using 80% of solar power with FSC (Forest Stewardship Council) paper from controlled and responsibly managed forests. With the purchase of these badges, we have joined the TreeByTree initiative. The congress has joined the Food for Good project, donating all food leftovers to local associations.

APP INFO

The App is designed to enrich participants' experience. Search "Sido Event" in the App Store or Google Play and download. Submit your questions to the speakers through the App during the Discussion sessions.

Il futuro dell'ortodonzia: dalla diagnosi al piano di trattamento in pochi minuti

SALA VOLTA

La gestione del piano di trattamento in ortodonzia è preceduto da una meticolosa collezione dei records diagnostici che devono costituire la guida all'approccio terapeutico. Grazie alla digitalizzazione, all'interno del software di setup ClinCheck® è possibile non solo valutare i modelli digitali ma le foto intraorali ed extraorali, le radiografie e a breve con l'Invisalign® 3D Face Scan sarà possibile meglio contestualizzare i movimenti che verranno programmati. Le variazioni dentali programmate nel setup infatti possono essere simulate staticamente nella foto del sorriso (In Face Visualization), dinamicamente nel viso attraverso un video (Smile Video) e prossimamente anche con Face Scan, il tutto contribuisce ad aumentare l'accuratezza del piano di trattamento dato il numero di informazioni che vengono raccolte. Inoltre, tutto ciò, grazie ad un'innovazione che sarà disponibile nel 2026, potrà avvenire in pochi minuti dall'invio della prescrizione del caso permettendo così di aumentare l'efficienza del percorso terapeutico.
